Statement of Non-Involvement in Lobbying Activities

Great Lengths Group has always been committed to conducting its business activities in accordance with the principles of maximum transparency, ethical integrity, and fair competition.

Through this statement, Great Lengths Group publicly declares that it does not finance, promote, or participate directly or indirectly in any lobbying activity aimed at influencing the political, legislative, or regulatory decisions of government institutions at the local, national, or international level.

Great Lengths Group pursues its business objectives exclusively through the value of its services/products, innovation, and transparent dialogue with the market and consumers. The company's positions and any communications with the competent authorities are limited to fulfilling the regulatory and administrative obligations required by law, excluding any intent to influence public policy in our favor.

Great Lengths Group does not support, either financially or through other forms of contributions, political parties, political action committees (PACs), or trade associations that engage in special interest representation activities.

The operations of Great Lengths Group are based on the belief that business success must derive solely from operational excellence and compliance with market rules.
